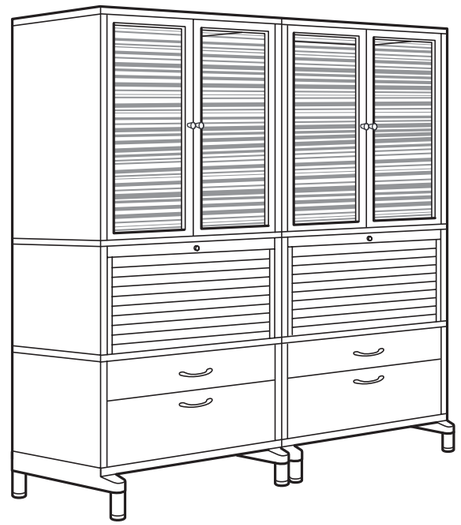
EFFEKTIV

QUALITY
All EFFEKTIV storage system components have been tested and approved for office use in accordance with European and North American safety requirements.

Read more in the warranty brochure.



Effective for all spaces
EFFEKTIV storage can be built in different heights so you can adapt it to suit most spaces. The system comprises four different bases and frames in two heights. You can combine these with doors, drawers, fileframe fronts and lockable roll-fronts. Just follow your imagination! Build high or low. Wide or narrow. Freestanding or fixed to the wall. Put cabinets on castors, cover a wall with storage or make a room divider. The possibilities are almost limitless!

With EFFEKTIV storage you can get a workspace that reflects your taste. A discreet one that matches everything else or one that stands out. You design EFFEKTIV yourself by choosing among different colours and materials for the frames, drawers and doors, and by adding lighting. A birch frame with high gloss white doors can give your room a new lease on life. A white frame with frosted-glass doors makes the room more harmonious. Combine cabinet doors any way you like and make your own work of art on the wall.

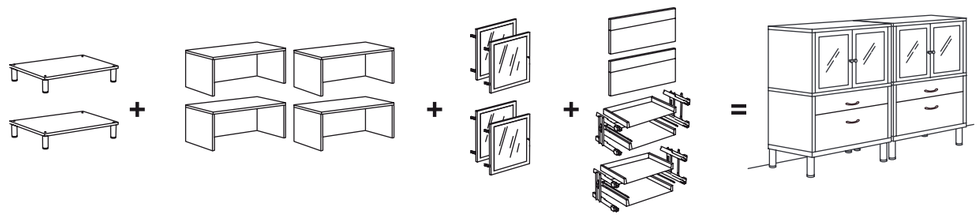
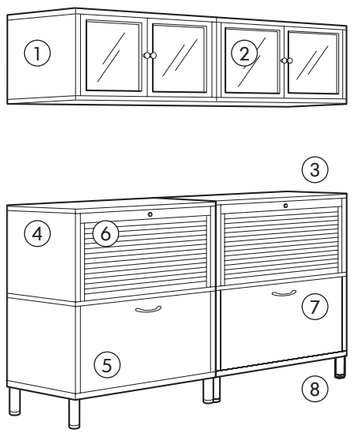
Certain articles require assembly.

HOW TO BUILD



Think carefully about what you need to store – the interior fittings you choose determine what base and which add-on units you need.
Start building from the bottom with a mobile or stationary base. Work your way up – add-on units come in two different heights. Add drawers, file frames or shelves and choose fronts and doors that suit your needs as well as your taste – there are several different materials and colours to choose from. Complement with accessories and choose handles or knobs from our wide range.

GOOD TO KNOW



1. Wall mounted cabinets provide plenty of storage while saving floor space.

2. Glass doors protect your office supplies while providing an easy overview of cabinet contents.

3. Frames and shelves have a hardwearing surface that is durable, stain resistant and easy to keep clean.

4. Add-on units are finished also on the back; your storage combination looks good from all sides and is suitable for use as a room divider.

5. Create smart storage on the inside; choose interior fittings from the EFFEKTIV range to suit your specific needs.

6. The roll-front is lockable for safe storage of your private things.

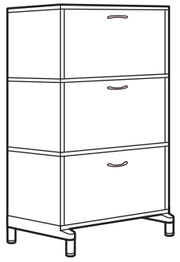
7. Knobs and handles are sold separately; choose the style that suits your taste and storage combination.

8. Adjustable feet make storage units stand steady also on uneven floors.

COMBINATIONS

Choose knobs and handles from our wide range that suit your needs. Combination prices do not include handles.

EFFEKTIV storage furniture has a back finished in melamine or veneer. This means that storage solutions can be placed in the middle of a room, if desired.
Total size: 33½x16⅞x37⅛" (85x43x94 cm)
This combination in birch veneer $229.99



A safe and sturdy filing cabinet. You can stack up to three file frame units on a base with supporting legs. Just add SUMMERA drop files to complete.
